Planning an information scavenger hunt this Fall?

Here are a few helpful tips:

**Tip #1:** Coordinate and consult with Reference Librarians.

**Tip #2:** Provide basic information about the library beforehand, i.e., library instruction presentation.

**Tip #3:** Make sure the resources needed to answer the questions are available.

Well-designed library scavenger hunts can be a lot of fun and serve a multitude of purposes. Whether used for library orientation or research skills, they are an engaging teaching tool that transcends the classroom.
