America’s Digital Frontiers:
Cybersecurity in the 21st Century

Featuring John W. Wilmer
Technical Director, Global Information Grid Enterprise Services
Defense Information Systems Agency, Department of Defense

Tuesday, November 19, 2013 • 12:30–2 p.m.
Dunleavy Room, La Salle Union

John W. Wilmer is the Technical Director, Program Executive Office, Global Information Grid Enterprise Services (PEO GES), for the Defense Information Systems Agency (DISA). He is responsible for the technical development, oversight, evaluation, and incorporation of innovation into the PEO’s enterprise services processes and capabilities.

Wilmer’s experience ranges from software design and development to project and program management, and he is a frequent presenter of net-centric enterprise service capabilities at nationwide technical forums. His experience comprises the full software development lifecycle in accordance with Department of Defense specifications, including the transition of client-server applications to net-centric principles.

Wilmer is a member of the Armed Forces Communications and Electronics Association (AFCEA) Northern Virginia chapter, and he is a past winner of the AFCEA Meritorious Service Award. In addition to volunteering for the AFCEA NOVA chapter, he is a member of the AFCEA Intelligence Committee and is a graduate of the AFCEA Leadership Forum. He is also a graduate of, and currently serves as a mentor for, the Emerging Leaders Institute, an initiative of Leadership Fairfax. Wilmer is also a member of the Project Management Institute, and he achieved Project Management Professional (PMP) certification in 2006.

Wilmer graduated with honors from Princeton University, where he earned a Bachelor of Science in Engineering in computer science.

Co-sponsored by the History, Political Science, and Computer Science departments.

DRP
Event is free and open to the public.
