After you submit an assignment to Turnitin, it processes an *Originality Report*, which provides feedback about whether you are citing your papers correctly. There are *two* ways to access this report:

**Method A**
1. Navigate to the link where you originally submitted your assignment.
2. Click *View/Complete*.
3. Click the button for *View*.

**Method B**
1. Go to the My Grades area.
2. Click the link for the name of the assignment.
3. Click the globe icon for your *Originality Report*. 
Tour of the Turnitin Document Viewer: Originality

Click **Originality** to see how your paper compares to papers and reference materials in the Turnitin databases.

The **Similarity Index** shows how similar your paper is to sources that were found in the Turnitin databases.

A lower score would likely indicate an original paper, while a high score might indicate incorrectly cited sources or possible plagiarism.

Text in your paper that matches sources in the database will be highlighted.

The matching sources will be listed in the right side column.

Click here to download or print a copy of your paper.

If your paper has been graded, your earned points may be shown here.

Tour of the Turnitin Document Viewer: GradeMark

Your instructor may use **GradeMark** to offer comments and feedback on your grammar and writing.

Click the **GradeMark** button to see if it is enabled.

Overall comments on your assignment can be found here, on the right side column.

The purple comments represent possible grammatical and spelling errors.

Click on the comment to learn more about the possible error.

The blue comments are specific notes from your instructor.

Click on the comment to read the full text.
